Yes they will likely use Jon (or he will be there somewhere) for all of these topics so we should organize around these discussions.

For SA360, it would be good to see who Brad selects as the Exec to work with Jerry. The director level on Bing is very aggressive on the parity issue which is why it would be good to lift this up a level or two. But if it is Jon, then I should deal with him (along with Jerry).

Please use me as you deem appropriate.

Joan

you don't think they'll put Jon on this?

Also - how do you want to organize - needs someone from Top Partners (you?) next to Seb. I think we may want to bring in someone to negotiate the SA 360 commitments so you can stay at a higher level across this.

Hi Kent – Do you want to take a look at what you’ll see below? We’ve sought to capture the next steps for each of the items we discussed. If you want to make any corrections needed, I’ll this as the plan for the work on my end:

**SA360-Bing Interoperability**

- We will designate and pull the respective tech teams together to work through issues and work against our roadmap to make progress on the important issues.
- We need to have an agreement in place by the end of April, including a timeline for implementation.

# Redacted - Privilege

- Brad will check into concerns about Microsoft interaction with regulators on these issues.

# Redacted - Privilege

## **O365-Google Drive Compatibility**

- Kent will send information to Brad on the issue and he will follow up and set up a call for the teams at the two companies.

# Redacted - Privilege

## **Azure Dedicated Host licensing issues**

- Kent will send a couple of paragraphs describing this issue and agreed to have the teams that worked on previous licensing issues work through this together and come up with an alternative.

# Redacted - Privilege

# Redacted - Privilege

## xCloud on Android

- The Google lead for Play Store will talk with the Xbox team to accelerate the conversation and seek to come to an understanding. Kent and Brad will stay in touch and track this.

# Redacted - Privilege

## Data Center Human Rights Assessments

- Kent will follow up with Pablo and Brad will follow up with Dev to encourage them to finalize a joint approach regarding trusted cloud agreements.
- Kent will look into the Google situation in Saudi Arabia and Indonesia.
- Brad will share information about practices that have worked in China.

# Redacted - Privilege

## Supreme Court Copyright Case

Kent and Brad will publish their joint op-ed when the Court resumes and the case approaches

# Redacted - Privilege

Thanks!

Brad
