Subject: [EXTERNAL] Fwd: Follow-up on Kent/Brad discussion

Thanks Jon - also on the thread with Brad and Kent where I let them know you and I were connecting on this.

Comments below in italics

SA360 – Sounds like there was some broad agreement to solve this by end of April. We have small team on our side (one person from my team, 2 from product group) that are ready to engage. Who do we want them working with on yours?

We will work to solve by the end of April - may be ambitious but we can try to drive forward. Joan will lead this from our end working with Jerry Dischler from ads product (Jerry is the senior POC, could be one or two others). I'll have Joan reach out to discuss.

Hope you are staying healthy and safe.

Thanks - you as well. Difficult times but I'm glad to see so much work being done by Microsoft to help with

this crisis - very good to see tech contributing! If you want to get on the phone and run through this list let me know. Thanks,

Don

I wanted to send a quick note to make sure we are moving the ball forward after Kent/Brad discussion.

Here is my view of next steps but wanted to confirm with you:
