Real property taxes become due and payable on December 31 next following the date of the levy thereof, and commencing on that date, become a first lien on the real estate taxed until it is paid or extinguished as provided by law. See, Neb.Rev.Stat. §77-203 (Reissue 1990).

One half of the taxes due under section 77-203 shall become delinquent on May 1 and the second half on September next following the date the taxes become due, except that in counties having a population of more than one hundred thousand, the first half shall become delinquent April 1 and the second half August 1 next following the date the taxes become due.<sup>4</sup>

Upon complying with the conditions stated in Neb.Rev.Stat. §79-516.08 (Supp. 1991), real property may be set off from the school district in which it is situated and attached to another school district. You have asked how uncollected taxes on real property which has been transferred to another school district pursuant to this statute are to be apportioned when collected.

The county superintendent shall also report to the county treasurer the necessary changes to be made upon the tax lists of the county. Upon receiving said notification, it shall be the duty of the county treasurer to adjust the tax list of the county in accordance with the change of district boundaries so that the uncollected taxes levied upon property that has been transferred to another school district shall when collected be placed to the credit of the district to which the property has been transferred.

It therefore appears to us that uncollected taxes on real property which has been set off from the school district in which it was situated and attached to another school district pursuant to
